**In a game of football, the team itself decides everything. However, team spirit is not only key to success on the pitch. In its collaborations, Shell Deutschland Oil GmbH sees itself as working with partners on an equal footing, with a shared goal. This year's Shell Brand Partner Conference was also held under the motto of „ONE TEAM, ONE GOAL“. It took place from 26 to 28 March 2018 in Berlin, and was organised by DFB-Reisebüro.**

The sense of community was strengthened by the choice of locations and programme elements connected to football. In the legendary Olympic Stadium, the „team spirit“ was brought to life for employees and customers, with inspiring speeches, workshops and discussions. The focus was on discussing thoughts with each other, supported by a varied, diverse programme. The highlight was an unforgettable evening spent as VIP guests at the classic international match of Germany against Brazil. The participants met in the Players' Lounge before the match had started, and the winner of the bet was decided there too, afterwards.

DFB-Reisebüro, experts in travel and events, designed the three-day event and its key visuals. They were responsible for the entire implementation of the event.
